

Throughout October, we held our first student focus group of the year. There was a total of approx. 20 students from every tutor group. Please see below for an overview of the points students raised and our next steps:

**Year group:** 11

**Staff Member:** Mrs Watson

**Focus:** GCSE preparation: How can the tutor programme further support you for your GCSEs?

You said...	We did...
We would like some time to revise for our mocks and GCSEs in tutor time.	We will collapse most of the tutor programme before your mock exams and GCSEs so that you can revise during this time. Mrs Watson will liaise with your tutors on when we will do this.
We would like some revision resources that can be used in tutor times.	Each tutor group will have a box of resources which contain revision guides, exam papers, and resources such as paper and flashcards that you can use. Please also bring your own resources in too.
Can we have a structured revision programme?	Each day will be assigned to a particular subject which will support you to direct your time. We will try and ensure we have a balance to provide you with some 'free time' to revise other subjects.
Can our teachers put together some revision tasks for us?	Mrs Watson will liaise with your teachers and Heads of Department to see if we can create some set revision tasks for you.
Can we use our Personal Development lessons?	We will look at using your Personal Development lessons after Christmas to revise. Potentially, there is the opportunity for some targeted revision from English, Maths and Science.
